

5 Decades of Caring

Celebrating our 10th anniversary, we were serving 89 individuals ranging from infants to adults at two locations. We continued to develop therapy services including physical, occupational, speech, and educational therapies. For adults, we provided academics, vocational training, self-help, communication, and home living skills. In 1978, the children's and adult program were officially separated and were renamed Vancouver Children's Therapy Center and Encore Industries in 1982.

1973 - 1983
