FOR IMMEDIATE RELEASE

Innovative Services NW Helping Hands Kitchen Renovation

VANCOUVER, WA—Innovative Services NW Helping Hands Kitchen is slated to get remodeled in June 2022.

The kitchen was built in June 2008 and serves approximately 3,160 meals and snacks per week to the children in the Early Learning program, as well as their families.

The kitchen will be remodeled to include high-capacity appliances that are crucial to continue serving meals to the growing Early Learning program and families, as well as future plans to expand nutrition education with cooking classes and healthy meal planning.

Innovative Services NW is currently looking for businesses or individuals who would be willing to donate the high-capacity appliances, or monetary funds.

For more information about becoming a donor, contact Melissa Ruth, VP of Operations, at mruth@innovativeservicesnw.org.
